Your Rate Information for 2012

WorkSafeBC - the Workers' Compensation Board of B.C. - is funded entirely by employers. Through your premiums, you are protected from lawsuits by workers who suffer work-related injuries and you help cover the cost of health care, rehabilitation and compensation for these employees.

Considering that a single injury can exceed \$1 million, the premiums we collect from employers must cover the current and future cost of claims. For instance, during 2010, WorkSafeBC paid \$1,293,000,000 in benefits to B.C.'s injured workers on behalf of employers.

To cover these expenses, each year we calculate a base rate, which reflects the historical cost of injuries in your industry. An experience rating discount or surcharge, based on your firm's health and safety record, is then applied to determine your net rate.

You will be classified in CU 721038 in 2012, and your net rate will decrease to \$2.44 from \$2.54 in 2011.

The table below shows how we calculated your rate.

Table with 4 columns: Calculation Steps, % Adjustment, \$ Value, and Description. Rows include Base rate, Experience rating adjustment, and Net rate.

Your 2012 classification is a decision (a copy of the classification unit description is attached). If you disagree with your 2012 classification, the Assessment Department may, on your request, reconsider it within 75 days of the date of this letter.

You can now conduct 80 percent of your business with WorkSafeBC online. Sign-up today, at WorkSafeBC.com, to report payroll, make payments, submit injury reports, and follow the status of a claim online.
